

## Local Firm Low Bidder On Terrace Lane Job

**\$98,217 Submitted To  
Levee District By  
G. H. Sternberg & Co.**

G. H. Sternberg & Co., for the second time in two months, is the apparent low bidder on a project to replace the Terrace lane sanitary sewer in Granite City.

The local contractor's figure of \$98,217.25 was the low bid received yesterday morning from among eight firms submitting construction cost proposals before a special meeting of the East Side Levee & Sanitary District board of trustees in East St. Louis.

The Sternberg firm had also submitted the low bid of \$76,000 when it was thought that Granite City itself would handle the sewer replacement. The levee district later agreed to take on the project after Mayor Leonard Davis appealed for aid, pointing out that repair of breaks along the line and maintenance and dewatering had exhausted available city funds.

The bids received yesterday morning were referred to the levee board's engineering committee for study, and no date on the announcement of a contract award was set. The board does not convene again until Feb. 14, however, Board President Lawrence Tolar said a special session will be called to a contract letting as soon as bids are checked and verified.

All bids higher than those previously submitted to the city, due to an "upgraded" bid for the replacement plans and specifications to meet levee district standards, according to A. L. Krieger, the district's chief engineer.

All bidders included an optional item on the pumping pit in their cost estimates, but Thomas Hennessy, a levee engineer, said the revised plans for the sewer replacement as drawn up for the district call for pumping to be handled separately, and probably will not be included in the contract.

If pumping costs are excluded, the Sternberg bid would be \$80,624, still the low bid, and well below the city's replacement estimate of \$100,000, with the added cost of engineering inspection.

Other bids listed: Other bids submitted listed first to include dewatering costs and second less the amount bid for dewatering, were: J. P. Keely Contracting Co. of East St. Louis, \$103,076 and \$90,876; A. E. Sebold Construction Co., Granite City, \$109,445 and \$83,935; M. H. Wolfe & Co., Granite City, \$111,737 and \$82,683; Nelson Construction Co. of St. Louis, \$118,450 and \$83,115; General Contracting Co. of Granite City, \$122,344 and \$104,280; Keely Brothers Construction Co., East St. Louis, \$150,000 and \$140,047; H. H. H. Co., \$180,000 and \$142,350.

Major items in the contract call for the furnishing and installation of 2632 feet of 15-inch reinforced concrete pipe, 125 feet of eight-inch cast-iron pipe, 500 feet of six-inch lead pipe, plus the removal and replacement of curbs, guttering, sidewalk and pavement, the installation of sewage and precast concrete pumping stations, excavation and backfilling and suitable granular and crushed stone bases.

The tremendous significance to the industrial development and future growth of the Quad-Cities area with the completion of proposed Federal Air Route 51 (The Great River Road) was stressed today by William Morris, chairman of the Highway and Transportation committee of the Tri-Cities Chamber of Commerce.

"It would be hard to overestimate the favorable impact this River road can have on the Tri-Cities, as FA 151 will serve the Tri-Cities Port and Bi-State Agency facilities and provide convenient access to local industries, the Granite City Engineer, Depot and thousands of acres of flood-protected prime industrial land," Morris told the Press-Record.

"Announcement by the state of Illinois of extensive highway improvements scheduled for 1962 in the Tri-Cities area is extremely happy news to us here in the new year," the chairman said. "Local projects totaling \$12,000,000 represent a fairly big slice of the entire state-wide \$162 highway program which includes almost \$30,000,000 for the

## Thieves Break In At Three Local Welfare Agencies

**Break-ins at three local welfare agencies as well as a \$400 burglary at a Mitchell equipment firm, a house break-in and thefts from cars were reported this week to local area authorities, who also said today that a youth was chased when seen trying to enter a downtown office building and another youth confessed to two minor thefts in a Granite City subdivision.**

Burglars entered the offices of Catholic Charities, 2012 Delmar avenue, last night and took \$100 in cash and a grey stapler after gaining entrance by kicking glass out of a rear door.

Police are also investigating a break-in at the Protestant Welfare office, 2032 Edison avenue, between seven and nine o'clock last night. Mrs. Marie White told police that she and her daughter left the building for two hours and when they returned they found the lock on a bureau window broken off.

The window is located on the south side of the building. Marie White said that apparently nothing was taken.

Police said that the money was used to aid the missions and was accumulated through penny birthday donations. She added that \$100 in cash was taken on Monday between 12:15 a.m. Monday and 6:30 p.m. Tuesday.

The window was broken by a burglar who was seen running away from the scene.

Burglars entered the shop of the Soelberg Farm Equipment Co., 1211 East Chain of Rocks street, Venice. The estimate indicates \$2500 building damage.

## GC Urban Renewal Program Stalled

**Seek To Void Contract;  
Sons Reject Power To  
Designate Depository**

Granite City's hope to secure several million dollars in federal funds for area redevelopment under the urban renewal program has been stalled, it was reported to the city council Tuesday night. The councilmen voted down a motion to take over the power now vested with the city treasurer in designating the depository for city funds.

Alderman Donald J. Partney, chairman of the Plan committee, said the City Planning commission is seeking to cancel a \$1300 contract with a consulting firm until such time as the city can afford to enter into an agreement with the federal government.

"We've waited a year too late," Partney explained, saying it was hoped the city could finance its own renewal program through the use of federal funds. "It takes about a year for a city to qualify for federal aid," he said.

However, the three-year credit period for the multi-million expansion program in the Granite City area system expired last month. "It takes about a year for a city to qualify for federal aid," he said.

The program was for the firm to prepare a plan for the redevelopment of the city. The plan is to be approved by the city council.

## Year's Total Building In GC Drops To \$5,918,851

**827 Permits Issued  
185 For Houses; 50 For  
Tops-On Ban Notes**

New construction in Granite City dropped for the second year in a row, totaling \$5,918,851 in 1961. Home construction was down from 1960 with a sharp drop occurring after July when the state Building Board issued orders to the city that it would not issue any additional sewer top-ops.

In the first seven months, before the sewer top-on ban, permits were issued for 117, well below the 140 permits issued in the same period last year.

The 827 permits issued in 1961, a total of 185 for houses and 50 for tops-on, were issued by the City Building Inspector. The number of permits issued in 1960 was 1,000.

The Large Water Users Association, industries and businesses of Madison and St. Clair counties, are preparing to meet to oppose the proposed 26% boost in water rates in the local area and 30% to 47% boost in the Belleville area, being sought by East St. Louis & Interurban Water Co.

Following the debate, the council gave unanimous approval to the committee appointment and turned to other business pertaining to sewers.

#### Sewer Inspection Report

A report on council action taken last fall to halt the flow of storm water into the Nameoki sanitary sewer system was presented to the council by Edward Jurek of the engineering firm of Sheppard, Morgan & Schwab. The inspection was ordered in an effort to prevent further breaks in the sanitary sewer line, which was not designed to handle storm water flow.

Jurek said broken manholes and clean out points were the greatest contributing factor to the flow of storm water into the lines. He said manhole covers had been removed or tampered with, and cleanouts had been broken and in some instances bricks were removed from manhole walls and ditches dug to the holes to carry off surface water.

The report also showed 53 violations of downspouts connected to the sanitary sewers and that the situation had been corrected in all but 10 cases, which were in doubt.

The engineer explained that further inspection would be required with the questionable downspouts flushed with a hose and an effort made to trace the flow of water in the sanitary sewer system. He said the tests would be made as soon as weather permits.

He was asked by Alderman Beatty if the removal of storm water from the lines would prevent any further breaks. Jurek replied he could not answer definitely, but it was known that the flow of storm water was a contributing factor in damage to the sanitary lines.

A \$2152 bill submitted by the consulting engineer firm of Syedrud & Pichel called in last fall by the city to determine the cause of the Terrace lane sewer breaks, was approved by the council. The firm noted in a letter to the council that the cost of the inspection was less than the \$6000 ceiling set by the aldermen.

At the request of Alderman Beatty, the mayor said he would advise the firm to continue its inspection at locations where breaks are expected to occur. The city engineering staff is to furnish a list of the locations.

for a supermarket, drug store, shoe store, gift shop, infant wear shop, floral shop and department store. A service station also is to be located near the shopping center.

Council approval was given Tuesday night for zoning the tract C-2 commercial for the shopping area, R-5 residential for the apartment buildings and R-4 residential for a 200-foot "buffer strip" which is to be located between the present Cloverview subdivision and the shopping area.

The buffer area is to be reserved for future development with brick, duplex dwellings, but until such time as it is developed, the tract is to be shaded and maintained by the developer as a play area.

**Swimming Pool In Plans**  
The entire 37½-acre site has a frontage of 1350 feet along Pontoon road. Wolf said further plans call for the construction of a swimming pool in the "garden-living" apartment area.

The property has been purchased from Doris Gilliam by Wolf, and while outside the city limits, the development was delayed because of zoning regulations. The adjacent area in Cloverview subdivision is zoned R-1 residential and objections were raised to the C-2 classification originally sought for the entire tract.

A compromise was reached following a hearing conducted

Any one having information concerning her whereabouts is asked to contact Granite City Police Chief Raymond Willard or the Co-ordinated Youth Services. Bids Sought For Fire Dept. Pickup Truck

Bids are to be sought by the city on the joint purchase of a pickup truck for the fire department's new deluxe fire-fighting gun which has been purchased but has not yet been put in use.

Fire Chief Elijah King told Granite City council members Tuesday night that the fire department had \$900 in its foreign fire insurance fund for maintenance of equipment which could be applied to the cost of the truck and the mounting of the high-powered water gun.

He said originally, when the \$600 piece of equipment was purchased, it was planned to mount it on the ladder truck. However, a separate mounting on a pickup truck would be more serviceable, he explained, giving the equipment more mobility. The chief added that inquiries showed a three-quarter ton pickup truck could be bought for about \$1600 to \$1700.

Objections were raised by Alderman Charles Meyer, who said a number of council members did not know the department had the deluxe gun and that he had asked for a list of equipment needed by the department before the last budget was prepared.

Alderman Ford Johnson, a former fireman, said the gun could be put in service immediately upon delivery of the truck to the fire department, and it would be beneficial to the firemen and an asset to the city. Nonn, asked the city to again consider purchase of an inhalator for the West Granite station.

Warrent Is Filed On Assault With Hammer

In custody at the Madison county jail since Dec. 20, Robert Henderson, 54, of 1911 Edwardsville road has been charged with assault with a deadly weapon. The complaint was signed by Assistant State's Attorney John Gitchoff, and a warrant was issued by Judge of the Peace Harry E. Hartman based on the beating of Henderson's brother and mother-in-law at their home in Dec. 19.

No preliminary hearing has been scheduled, and Henderson has failed to post a \$2000 bond set by Hartman.

## Holiday Season Gone? It's Just Beginning!

Throughout the year, one looks forward to a certain number of holidays. By the time New Year's Day comes, most Americans celebrate a variety of days which have significance.

Depending on what person happens to be celebrating, there are some days which are holidays for only a number of people — state or national holidays.

For example, Jan. 19 is a holiday in the states of Arkansas, Florida, Georgia, Mississippi, North and South Carolina, Tennessee and Virginia. The occasion? Robert Lee's birthday.

Lincoln's birthday, Feb. 12, is a legal holiday in many states, although in some it is observed only when designated by the governor. And a number of states have made a legal holiday of the first Tuesday after the first Monday in November — general election day.

As a matter of fact, there are so few fewer than 41 days of the year which are celebrated in at least one state as a holiday.

Take a little respite from the day, work-a-day world? Just travel around a little, and almost every day can be a holiday!

At least the man who loses \$8, all his money loses all his earnings at the same time.

## Here Tuesday Pianist Charles Rosen Next Concert Attraction

The current season of the Tri-City Community Concert Association will continue next Tuesday night with the appearance of Charles Rosen, young concert pianist, in an 8 p.m. performance at the Granite City senior high school auditorium.

A musician by choice, Rosen has also won outstanding distinctions in the academic world. Only 34, he possesses MA and PhD degrees in French literature, and is a Phi Beta Kappa summa cum laude graduate of Princeton.

Awarded a Fulbright scholarship, which was renewed a second year, he did research in Medieval French musicology in Paris, and found time to make the most complete recordings of the Debussy Etudes.

Recordings of his interpretations of the piano music of Haydn, Mozart, Brahms, Martin, Poulenc and Ravel are also available in this country.

Rosen once toured Europe as concert pianist with the Seventh Army Symphony, and over the 18-day period played 14 concerts in 14 different towns.

He also finds time to do some composition. He has composed all of his own cadenzas for the Mozart and Beethoven concerti he plays.

By the time he was 11, Rosen had already spent five years studying at the Juilliard School of Music. He became a pupil of the late Moritz Rosenthal, and worked in composition and theory with Karl Weigl.

He made a New York Town Hall recital debut in 1953, and has returned there three times since. European tours in 1955, 1956 and 1957 took him to most of the important music centers of France, Italy, Switzerland, Luxembourg, Germany, Austria, Greece and England.

Recently, Rosen turned author, writing a definitive article on the works of Ravel and Debussy.

**Year's Top Building**  
(Continued from Page 8)

980 permits with a total value of \$8,305,610.

One Million-Dollar Month  
Last year's building boom is reflected in that there is only one million dollar month with 70 permits including 14 houses and a total value of \$1,189,230. In 1960 there were two million-dollar months; while in 1959 there were three.

The second highest construction month last year was September with 56 permits, 28 dwellings and a total value of \$786,430. The issuance of building permits after the SWB deadline was particularly high in areas where sewer tags had been approved in advance, such as new subdivisions and additions approved by the council.

A breakdown of Granite City construction by month is as follows: January, 23 permits valued at \$129,942; February, 35 at \$134,141; March, 50 at \$250,280; April, 92 and \$250,534; May, 110 and \$671,108; June, 89 at \$1,170,052; July, 85 and \$773,434; August, 85 and \$494,248; September, 88 and \$786,430; October, 80 and \$338,120; November, 38 and \$109,706; and December, 38 and \$102,007.

Late December Permits  
A late surge in Granite City building permits, totaling \$83,900, topped the December tally to 34.

Seven dwellings contributed greatly to the \$133,900 total. Kent Reilly Co. 3830 Delmar avenue, obtained permits for six homes in one subdivision and one in Dream Villa subdivisions.

The lone Dream Villa subdivision at 3263 Edgewood, is a brick veneer home, but has six rooms and bath and toilet.

All of Brick Veneer Five \$18,500 homes will be erected on lots 5, 8, 9 and 14 in the Westchester subdivision and one \$20,500 home, having six rooms and a bath, will be built on lot No. 10. All six are brick veneer on the exterior.

With the exception of the last week, only one other building permit was issued during December and that was for a two-story garage to cost \$110,000.

Thus dwellings dominated the month's construction activity by value, with eleven permits issued with a value of \$154,300.

Next in line were improvement projects with 14 permits for \$23,152, then even commercial permits with a \$2,017 valuation followed by garage and carport erections with five permits issued for \$53,388.

There were two permits issued during December for projects with a combined cost of \$105,000.

A man's reasoning may be faulty, but it is better than a woman's.

## Reilly Firm Plans Include European Production Plant

The Reilly Tar & Chemical Corp. will join Parco, Davis & Co. in a joint venture in the production of bulk and fine chemicals in Europe, sometime this year, according to K. J. Morrison, local Reilly plant manager.

Following site selection within the next few months, the two firms will begin a \$3-million plant for production of pyridine, pyridines, cyanopyridines and related chemicals. Two jointly-owned companies will be established, one for production and the other for marketing.

Current plans call for operation of the new European plant within 18 months to two years. The Reilly firm, which has headquarters in Indianapolis and operates 14 plants throughout the U.S., holds process patents on production of synthetic pyridine. This chemical is used to control acids in chemical reaction, for production of a water repellent, and as an intermediate in the production of drugs and other chemicals.

Morrison said the new venture will give his company an opportunity to take advantage of the expanding European chemical market. The local plant will be little affected by the action, he said.

## Street Dept. Station Wagon To Be Repaired

The street department station wagon, damaged last month in an accident in which Scott of Streets William Warfield was injured, is to be repaired at a cost of \$408, according to a contract awarded Tuesday night to Andy & Johnny's Auto Shop by the city council.

Alderman Samuel W. Williams, chairman of the Public Works committee, pointed out that the repair bid was in the amount of \$1199, submitted by 1818 Street Garage. He told council members the 1957 vehicle has been operated 47,000 miles.

Also, the council voted to have an alternator for the city inspection department "scout" vehicle, with Motor Co. to make the installation at a cost of \$62 and the present generator as a spare.

Whitmer said the two station wagons in the city are in the vehicle has been taken down the battery.

## Six More Street Lights To Be Installed By City

Installation of six additional street lights was approved Tuesday night by Granite City council members in a resolution submitted by Public Safety Committee Chairman Frank Morgan.

The new lights are to be located in the 2800 and 3000 block of West 20th street; in the 20th street between Le and Nash avenues; two more in the 20th street between Le and Edwardsville roads; and a second mercury vapor light to go in with and approved earlier for the West 20th road and U. S. highway 67A intersection.

Vesel explained the lights are needed at each of these sections because of the narrow roads.

## Farm Column

By IRUMAN W. MAY  
Madison County Farm Adviser

Since about two-thirds of the barn feeding season is left, now is a good time for dairymen to take an inventory of their roughage supplies and estimate needs for the rest of the winter.

Farmers who are going to be short would be better off to make a slight adjustment in their feeding program now than to run out of hay next spring and have to make a drastic change for a few weeks before cows can go on pasture.

In making estimates, dairymen should figure that they will need about 2 to 2½ tons of hay equivalent for each mature cow for the rest of the winter. In addition, they will need approximately 1 to 1½ tons of hay equivalent for all heifers over one year old and about ½ ton for each calf under a year of age.

As a rough guide, figure that three tons of corn silage equal one ton of hay. It takes from three to four tons of legume grass silage to equal one ton of dry hay.

Farmers who find that they are going to be short of roughage have several alternatives. The first and perhaps the simplest solution is to sell off a few of the lower producing cows in the herd.

The second alternative is to buy hay. Hay prices may be more favorable now than later in the winter. Dairymen should remember that good hay is usually the best buy. High-quality legume hay containing a high proportion of leaves may contain more than twice as much feed nutrients per pound as poor hay.

The third alternative is to feed more grain to replace part of the roughage. Two pounds of corn properly supplemented with a high protein supplement is worth about as much in the ration as three pounds of average alfalfa hay.

This means that if alfalfa hay is selling for more than \$36 a ton it would be more economical to feed heavier on corn in the

An interesting program has been prepared for the annual St. Clair-Madison-Monroe Vegetable Growers' Association school at the association hall near Caseyville Jan. 16 and 17. All commercial vegetable growers and interested home gardeners are invited, along with any people connected with the vegetable industry. The annual meeting of the Illinois State Vegetable Growers' Association will be held in connection with the school.

The opening program on Tuesday morning, Jan. 16, starting at 9:30, will be devoted to horse-radish production and marketing, including the results of the 1961 horse-radish variety tests. The afternoon session will include a report of the Vegetable Growers' Association of America by Peter C. Grollis, secretary and discussion of tractor and engine maintenance and weed control in field crops and vegetables.

A report of the 1961 sweet corn variety trials will open the Tuesday afternoon session, followed by talks on earworm control on sweet corn and marketing sweet corn and other vegetables. Also on this program will be a business meeting of the state association, with President Walter Ahrens, Danville, presiding.

Officers of the association, elected at the closing session Wednesday afternoon, include a report of the Vincennes area vegetable program and talks on control of insects and disease in tomatoes and varieties of crops.

Most of the speakers are staff members of the College of Agriculture, University of Illinois. Printed programs will be mailed to vegetable growers and will also be available at the farm adviser's office.

Noon dinner will be served both days by wives of the association members.

Officers of the association, elected at the recent annual meeting of members, are Robert L. Lohstein, president; Wm. Bruns, vice-president; Harley Willard, secretary and Clyde Weisert, treasurer. Other directors are Martin Arrh, Robert Fournie, Melvin Jillen, Bill Keller, John McMillin, George Powell and Ferdinand Strackeljah.

A meeting will be held at the Farm Bureau building in Edwardsville, the afternoon of Monday, Jan. 8, at 1 p. m. to discuss the filing of farm income tax returns and social security regulations for farmers. A. R. Allen of the agricultural economics department, University of Illinois, will lead the discussion. All interested persons are invited.

Turkey producers are wondering about the proposed marketing orders. Should there be a referendum of producers, it will likely be in late January. A recent survey shows there are 11 commercial turkey producers in Madison county. Hog raisers are reporting good sized litters being farrowed. Elmer Starkey of Moro township reports his sows are having litters of 12 to 15 pigs. The recent cold weather has required extra attention for the new pigs. Productive pastures are built on a sound fertility program. Testing soil samples now will get you off to a good start on next year's pasture program. One of our friendly readers, Claude B. Martin, along with his greetings for the New Year, reminds us of the well-known quotation from Emerson: "Be not the first by whom the new is tried, nor yet the last to lay the old aside." This certainly applies to many farming situations. A recent Treasury announcement hikes the annual purchase limitation on Series H Savings Bonds to \$20,000. These are the bonds that pay interest by Treasury check every six months. The annual purchase limit on H bonds remains at \$10,000. Persons wanting more information on Savings Bonds should see their bankers. Delmar Meffert of Lee township plans to sow some of the fast-growing alfalfa on his wheat. Good varieties for top production in short rotations are the Du-Puits and Alfa. They establish better, start spring growth earlier and really bounce back after cutting. For long-term stands, plant Ranger, Buffalo and Vernal alfalfa. All three are resistant to bacterial wilt. Let us know if you want a free copy of the 1962 Farmer's Tax Guide. It will help you prepare your income tax returns. St. Louis is one of the nation's important meat packing centers and the St. Louis National Stock Yards is the world's largest hog market and one of the nation's "top five" market centers for all species of live stock combined. In 1961 the yards topped all other in saleable hogs for the sixth straight year. Most Madison county hogs are of course marketed there.

## New Building For Mortgage Firm, Retain GC Office

Mercantile Mortgage Co., mortgage bankers, will move the company's executive offices from 21st street and Madison avenue in Granite City to a new building to be constructed for them in the 7700 block of Forsyth in Clayton, Mo., William C. Rainford, president, announced today.

Construction of the new building will begin this summer, and the company expects to begin operating out of its new quarters in March 1963.

Also scheduled to be moved into the new building are the company's servicing and accounting departments, now at 1410 Niedringhaus avenue, Granite City; the installment department and collection departments at 4213 Lindell Blvd., St. Louis; and the income loan division and Clayton branch office now at 8800 Carondelet in Clayton.

The company's Granite City branch office operation will remain in its current location, 2044 Madison avenue.

The decision to secure new quarters for Mercantile was necessitated by the company's rapid growth over recent years, providing an expansion of home office facilities, and by the desirability of consolidating operations now carried out at four separate locations, Rainford said.

Ample space will be provided by the new building for continued expansion of the company in the immediate future, he added.

In 1959, when Mercantile moved into its current headquarters, the company was servicing about \$29,000,000 in mortgage loans.

Today, the company services over \$200,000,000 in FHA, VA and conventional loans and home improvement loans to more than 25,000 customers in Missouri, Illinois and Indiana.

30,000 Square Feet

To be called the Mercantile Mortgage Company Building, the new three-story, 30,000-square-foot structure will be built west of the Sprague-Vanderbilt-Barney Clayton store on the south side of Forsyth. Of fireproof stone and brick design, it will be completely air-conditioned and will have elevator service. There will be space to park over 100 cars.

The site is now being cleared for construction.

Mercantile Mortgage Co. was founded in Granite City in March 1926, and Rainford has served as president since 1938. The company now ranks among the largest mortgage banking firms in the Midwest.

Company branches are in Granite City, Peoria, Champaign, Decatur, Springfield and Carbondale, Ill.; Clayton, St. Louis, Mo.; and Indianapolis, Ind.

## Minister Group Outlines Policies For Sundays

In response to a letter from our society. This special day is the Granite City council on Sunday sales operations, the Quad-Cities Ministerial Association set forth its policies during a meeting on Monday.

"Our views might differ from those expressed by council members, but this is a statement of our policies," it was reported by Rev. Paul A. Evans, president of the association.

The group's policies are—  
"We believe that our country and citizenry have been benefited by the selection of one day for worship and rest."

"We know that the relationship of people with their God has been preserved and strengthened by the regular habit of worship on a day set aside for worship. In these days of crisis, time to meet and man's spiritual need must be guarded."

"The family is the center of

our society. This special day is through family activity.

"The pressures of today's living emphasize the need for the historic one day out of seven for the refreshment and restoration of man's body and mind."

"Traditionally America has reared its society and economies to the selection of Sunday as this day for worship, fellowship and rest. We believe that Sunday must be preserved for these blessings."

### Madison Fire Call

Madison firemen answered a call to West Third and Jefferson streets at 9:35 a.m. today to extinguish a blaze at the home of Sonny Morris. The fire was attributed to a faulty fuse, and man's spiritual need must be guarded.

## County TB Seal Drive \$3367 Short Of 1961 Goal

The amount of \$3367 is still to be raised to meet the Madison County Tuberculosis Association's Christmas Seal Campaign goal. To date, \$36,633 has been collected according to Mrs. Betty McClintock, R. N., executive secretary.

All residents of Madison county are urged to mail their Christmas Seal contribution (as it is not too late) to the office of the Madison County Tuberculosis Association, 1144 North Main street, Edwardsville.

Exactly 47,459 letters were mailed to residents of Madison County last November 8, and to date 20,354 persons have made returns.

Each year the organizations in the Madison county area are asked to help with stuffing of the Christmas envelopes and delivering of posters. This enables your organization to give the money collected directly to residents for a yearly free chest x-ray and survey and follow-up program for persons with chest conditions.

**Mrs. Mullen, 80, In Ill Health, Takes Life**  
Mrs. Lola Ann Mullen, 80, who had been in failing health, was found dead at her home at 1737 State street at 6 p.m. yesterday after apparently taking her own life by hanging.

Mrs. Mullen was found lying at the foot of a stairway leading to the attic by her daughter, Mrs. Marie Griffin, and Mrs. Griffin's daughter-in-law, Mrs. Ronald Snelson. A strand of brown wrapping twine suspended from a banister at the foot of the stairs matched a piece found near her neck.

Mrs. Griffin called her son, Ronald Snelson, home from work and he summoned an ambulance. Mrs. Mullen was pronounced dead on arrival at St. Elizabeth Hospital. An inquest will be conducted by Deputy Coroner Francis Lahey.

Police said Mrs. Mullen left a note saying she was sorry but could no longer stand it, apparently referring to her illness, leukemia.

Mrs. Griffin and the Snelsons live in an adjoining apartment in the same building, at 1739 State street. They had been away for the day.

Mrs. Mullen was born in Mulberry Grove, Ill., and had lived in the Quad-Cities 60 years. Her husband, James G. Mullen, preceded her in death in 1958.

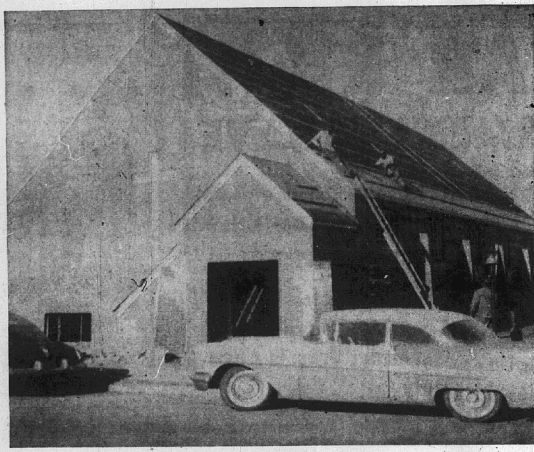

She was a member of the Madison Methodist Church, Order of Eastern Star Chapter 432, Gabriel White Shrine and Royal Neighbors of America.

Survivors, in addition to Mrs. Griffin, include a son, Gerald Mullen of Manitowish, Mich.; a sister, Mrs. Grace Foster of Artesia, Calif.; two grandchildren, and three great-grandchildren. Funeral arrangements are given in the obituary column.

**Four Weed Fires**  
Firemen were kept busy yesterday by extinguishing four weed fires throughout Granite City. The first fire occurred at the 2500 block of Pontoon road at 11:45 a.m.; followed at 12:25 p.m. in the 2100 block of Nevada avenue; next call came at 12:45 p.m. for the 3000 block of Dale avenue; and the last report was at 3:40 p.m. at Peeling and Namook roads. No loss was reported.

**Locked In Office**  
Mrs. Dan Dine, a custodian at Dr. Leo L. Gresk's office, 1415 Niedringhaus avenue, was locked in the doctor's office early this morning and had to summon help from the police. Sgt. Fred Minton arrived at the scene and had to remove the office door from its hinges to free Mrs. Dine. A button lock that is no longer used, apparently was set by accident, Minton said.

road, Mitchell, late Tuesday night or early Wednesday morning and made off with over \$400 in tools and equipment, Norman Soechtig reported to county authorities Wednesday.

Soechtig told the Press-Record that welding equipment valued at \$200 and hand tools worth about \$225 are missing, and that a complete inventory may show additional losses. He said the burglars gained entrance by breaking a window at the back of the shop.

While in the building, they siphoned gas from a truck parked in the shop, and broke four inside windows in an attempt to gain entrance to the firm's office. Soechtig said nothing was missing from the office.

Atty. Charles Jungels told police yesterday at 5:25 p.m. that he heard a scratching at the rear door of the Lester Jones Studio, 1924 Edison avenue, and when he opened the door, he saw a boy trying to cut through the storm door glass.

Jungels described the boy to police as being approximately 14 years old. The youth ran away when seen. Entry was not gained and the glass was not broken, but a 2x4-inch square was outlined on the glass, police said.

**Two Burglaries Cleared**  
Granite City Chief of Detectives James Lowder announced today that two Thanksgiving Day house burglaries in the Glenview area have been cleared with the confession of a 14-year-old boy, who has been turned over to Co-ordinated Youth Services.

Lowder said that the boy told him that he entered a home on St. Clair avenue and another on Elm avenue alone. Taken from the two homes was a model airplane motor which was recovered and a total of \$8.

**At Home**  
Maxine Twellman, 2408 Lincoln street, reported to police at 10:25 p.m. Tuesday that the rear door of her home had been pried open and a model airplane motor taken. She said nothing was taken.

**Flashlights, Milk Stolen**  
Thieves took eight flashlights and a few quarts of milk from parked trucks at the Dresse Dairy, Niedringhaus avenue and Benton street, this week, Mark Pickett told police Tuesday afternoon that the thieves apparently entered the company yard by crawling under the fence.

**Car Recovered**  
Roland Werths, 4403 Kirkpatrick homes, reported to police yesterday at 8:35 a.m. that his 1951 green Buick Wildcat was stolen Tuesday night.

Werths car was found abandoned at 23rd and Peeling streets yesterday at 2:30 p.m.

**Hubeaps Taken**  
Authorities are investigating the theft of hubeaps taken from a 1959 automobile belonging to Joe De Gonia, 2556 Iowa street. He told police Tuesday at 7 p.m. that his car had been parked in the 2300 block of Iowa since 8 p.m. Monday.

**False Bomb Scare**  
Thru Granite City police were summoned to Frohardt school, 2040 Johnson road, yesterday at 2:10 p.m. on a report that a child called the school and said that there was a bomb on the premises. Officers said it was a prank.

## Garage, Auto Destroyed In \$1200 Madison Fire

Fire destroyed a garage and a 1966 auto inside it and damaged two houses at 1857 and 1863 Edwardsville road, Madison, at 3 p.m. yesterday, with total damage estimated at \$1200.

Madison Fire Chief E. J. Miller said a rubbish fire behind the garage got out of control. The fire call was made to the Granite City department, he said, and it had to be transferred to Madison.

Asbestos shingle siding was burned off the side of a three-room frame building at 1863 Edwardsville road occupied by Mrs. Mildred Myatovich, while only slight damage was done to the other house, owned by Carltoh Hill.

The Myatovich house is located behind the other residence and nearer to the garage. The garage and auto belonged to Hill.

**Alton Assistant Chief Roberts In Sheriff Race**

Formal announcement of candidacy for the county sheriff Democratic nomination was made today by Major S. Harold Roberts, Alton assistant police chief. A law enforcement officer 28 years, he has received many national and local awards and commendations for outstanding police work.

The candidate, 50 years old, married and the father of three children, supervises 45 officers and patrolmen and nine civilian employees on the Alton force.

He is supervisor of personnel and training, records and identification officer, public relations officer, juvenile officer and a frequent lecturer and speaker at law enforcement institutes conducted by the University of Illinois, Southern Illinois University, Monticello College and Shurtleff College and at grade and high schools.

An investigator and special agent for the Office of Price Stabilization during the Korean war, Major Roberts is a world war II Marine Corps veteran. He is a graduate of both the National Academy of the Federal Bureau of Investigation in Washington and the National Training Center of Lie Detection in New York, and has attended two additional training sessions at the FBI Academy.

A graduate of Alton grade and high schools, he attended the Shurtleff and McKendree Colleges and holds a provisional elementary teacher certification.

He is active in the Baptist Church and Masonic organizations, and is affiliated with the Marine Corps Reserve, Marine Corps League, Veterans of Foreign Wars and American Legion.

Major Roberts has served as president of the Illinois Juvenile Officers Association, Illinois FBI National Academy Association, Illinois Policemen's Benevolent and Protective Association Unit 14, Illinois Police Association, Mississippi Valley Division, Alton Area Optimist Club and Madison County Police Association, and is vice-president of the Illinois Police Association.

Pledging that he would "render a public service with respect and decency" as sheriff, the candidate said:

"It is my feeling that through my education and experience in modern police work, which has afforded progressively responsible experience in law enforcement functions, including responsible command, supervisory duties as well as training responsibilities, I possess the necessary qualifications which would be of service and great value to the good people of Madison county."

"My knowledge and understanding of and with law enforcement personnel in the several municipalities in Madison and surrounding counties, as well as those throughout Illinois, Missouri and the nation, is another great asset."

## Boy, 3, Suffers Cut In Auto Crash Today

Bryan Eaves, three, son of Mrs. Dorris Eaves, 1925 Sixth street, suffered a cut beneath the right eye at 8:40 a.m. today when the front of his mother's eastbound auto collided with the right side of the southbound car of George Willis, 1527 Pontoon road, at Sixth street and Cambridge avenue.

A passerby in the Eaves car, he was released from St. Elizabeth Hospital after treatment and skull x-rays.

**Hospital Treats Wrist Injury, Others**  
Dennis Laboray, 10, of 3043 Myrtle street, received a fractured left wrist, while playing at Marshall school yesterday. He received emergency treatment at St. Elizabeth Hospital and was released.

Also treated at the hospital yesterday was Lucia Wood, one of 3128 Rogers drive. She was released after getting three stitches to a laceration on her chin received in a fall.

Four-year-old George Harper of 1105 Market street, Madison, was treated at 1:15 p.m. yesterday at the hospital for a laceration on the left side of the head.

**Police Marksmen Receive Awards**  
Frank Harris, Gerald Pinkerton and William S. Condis were cited recently for their marksmanship at the Granite City police shooting range.

Patrolman Harris won in 1960 for being the police team's best shot and Patrolman Pinkerton received the 1961 medal. Condis was recognized as the junior rifle team's club champion and was awarded a medal. All awards are in accordance with National Rifle Association rules.

**GC Man Missing**  
Charles Foster, 58, of 2536 Lincoln avenue, was reported missing yesterday by his wife, who told Granite City police that he was last seen at 10 a.m. Tuesday. She said that he was in a local tavern where he cashed a \$150 check. A red 1960 station wagon that he was driving was found by police yesterday at Niedringhaus avenue and Adams street. He is described as weighing 200 pounds and six feet tall.

**Minor Injuries**  
Larry T. Allen, 17, of 1720 Garfield avenue, sustained minor injuries yesterday evening in a two-car collision on Nevada road at Jill avenue. The other car was driven by Charles A. Volter, 40, of Maryville. Granite City police said both cars were traveling south and Volter stopped to make a left turn onto Jill.

## Trojans Seek No. 11, GCHS No. 1 In Weekend Prep Hardwood Action

Madison's Trojans, the only major prep basketball power in this area to survive holiday tournament competition with an unblemished record, will seek their 11th straight win tomorrow night in a conference contest when they host Highland Prep Bulldogs.

Earl McClanahan's club numbers Midwestwestern foes Beloit and Dupon among its 10 victories, while Roger Keshner's outfit is 1-1 in the MWCC.

Granite City, its losing streak nearly as lengthy by comparison as the string of Madison victories, is idle tomorrow evening, and then travels to Wood River Saturday night seeking its first Southwestern conference triumph in five outings. The Warriors have dropped eight straight. Wood River is all even at 5-2 for the season, including a 1-2 conference mark. The Oilers will play at East St. Louis (5-3) Friday night in one of three SWC attractions.

League-leading Belleville (4-0) will be at Edwardsville (1-2) and Alton, 6-3 overall, will be at home to Collinsville, who are 2-1 and 7-2 record. Both clubs are 2-1 in SWC play.

## 799 Hurt In Area Crashes In 1961; 1604 In Past 2 Years

The year just ended proved to be the second worst in history for Quad-City area traffic injuries.

The 799 persons hurt were exceeded only by the 805 recorded during 1960.

December again proved to be a severe month, with 93 injuries tabulated. This is more than in any previous December, and is topped only by the 94 listed for August 1960.

**1658 Accidents**

With 189 mishaps occurring in December, the year's total rose to 1653, third highest on record. There were 1731 Quad-City collisions in 1960 and 1657 in 1957.

The 189 figure ranks behind only two other months, both of which also were Decembers. The

December 1960 toll was 192 crashes, and the monthly crash record of 193 was set in December 1959.

One traffic fatality occurred in the past month, raising the toll to 25. Mrs. Evelyn Marie Saksa, 31, Bend road, was killed Dec. 21 when her auto was struck by a passenger train at the Exchange avenue crossing in East St. Louis. A switchboard operator at the Hunter Packing Co. she was on her way home from work at the time.

**Fifth Highest Death Toll**

The tally of 25 makes 1961 the fifth worst year in history, being exceeded by the 28 in 1955, 27 in 1956, 28 in 1957 and 44 in 1954.

In 1960, the number of traffic victims was 19.

April and June proved to be the most severe months of 1961.

### Yearly Traffic Totals In Area

Year	Accidents	Injuries	Deaths
1961	1653	799	25
1960	1731	805	19
1959	1655	734	24
1958	1476	622	33
1957	1657	617	28
1956	1542	607	27
1955	1572	686	26
1954	1139	427	44
1953	1025	429	24

with six fatalities in each instance. There were four in January, two each in February, March and November, and one each in August, September and December. This area escaped a auto deaths in January, July and Oc-

tober.

**Monthly Figures**  
December statistics were the highest monthly totals for 1961 in accidents and injuries. The month's 189 mishaps and 93 hurt compare with 158 and 63 in January, 142 and 47 in February, 131 and 70 in March, 142 and 66 in April, 118 and 64 in May, 150 and 81 in June, 128 and 61 in July, 106 and 58 in August, 145 and 79 in September, 126 and 57 in October and 140 and 57 in November.

The past year's 12-month tabulations represent monthly averages of 137 accidents, 66 persons hurt and two persons killed.

Based on the 1961 records, traffic mishaps have been occurring in the Quad-Cities at the rate of 4 1/2 a day, with two persons injured daily and a fatality occurring every two weeks.

### Pensioners Urged To Return Questionnaires

Joseph D. Wetton, secretary of the local Illinois' Veterans' Commission office, today urged veterans and widows of deceased veterans to complete and return the "Annual Income Questionnaire" received with their December pension checks.

He said the questionnaire must be returned before the end of January or pension payments from the federal government will be discontinued.

Recipients should contact the local office, in the city hall, between the hours of 8:30 a.m. and 5 p.m. Monday through Friday for aid in submitting proper income and net worth data, the IVC official said.

### Club Told of Meeting On Religious Harmony

"All men in the world living together in a harmonious religious atmosphere" is the goal of an ecumenical conference planned during 1962, Granite City Rotarians were told Tuesday by Rev. John Barrett of Sacred Heart Catholic Church.

Suggested by Pope John XXIII, the meeting will include representatives of various faiths, the speaker said. He urged cooperation by all to achieve "better religious understanding and spirit throughout the world."

Presenting detailed information on Catholicism, Rev. Barrett also answered questions from the club members. He was introduced by the program chairman, Rev. David B. Maxton, pastor of the First Presbyterian Church.

A special guest was B. C. "Tip" O'Neill, Noonday Optimist club president, who extended the Optimists' New Year's greetings to the Rotarians.

### Social Security Tax Guide Ready Jan. 12

Jay G. Philpott, District Director of Internal Revenue Service, today announced a delay in printing Publication 51—"Circular A—Agricultural Employer's Social Security Tax Guide."

Philpott said a change in the Social Security tax rates made it necessary to revise the publication, and the new scheduled shipping date is on or before Jan. 12, 1962.

Effective this week, the new tax rate for both agricultural employers and employees is increased to 3 1/2 percent. These Tax Guides will be mailed to all taxpayers of record as soon as possible after receipt. Philpott advises that employers not receiving a guide, and who desire one, can secure a copy from the Internal Revenue office nearest them or request one from the Springfield District office.

### Nieces Omitted

Two nieces were inadvertently omitted Tuesday in the listing of relatives of John Dufay, 67, who was found dead Monday at his apartment at 2128 Cleveland bldg. They are Mrs. Francis (Jean) Schwarzkopf of Granite City and Mrs. Norman (Cecilia) Johnson of Follinsbee, W. Va.
